Welcome to the Graduate Student Survey! This survey provides a unique formal opportunity to provide feedback on the quality of your graduate program, your financial support, the campus climate for diversity, your experiences as a TA, GSR, or GSI, and your satisfaction with campus services.

The survey is being conducted at UC Santa Cruz and other UC campuses. Survey results will be shared with faculty, staff, and campus decisionmakers, and will be incorporated into regular formal reviews of each department. The survey has been run since 2007.

Please use a computer to complete the survey in the most efficient and reliable manner. The survey will take 25-30 minutes to complete. Responses are saved as you progress, so the survey may be completed in more than one sitting.

Voluntary Participation
Participating in this survey is completely voluntary: you may skip any questions or end the survey at any time.

Prize Drawings
Many prizes are available, thanks to the sponsorship of the UC Santa Cruz Division of Graduate Studies and the systemwide Institutional Research office. All participating graduate students* will be entered into prize drawings for $25 to $200 "Downtown Dollars" gift cards, accepted at many downtown Santa Cruz businesses, as well as gift cards to a variety of stores and online retailers.

Confidentiality
Results from the survey will be reported only in the aggregate. Responses to open-ended questions will be paraphrased to protect the respondent's identity.

Protecting Your Privacy
Your personal information, limited to your name and email address, is used strictly for purposes of sending survey invitations and reminder messages. Such information is only accessible by survey administration staff. After the survey is closed, your name and email addresses will be deleted from all survey datasets. Your student ID will be used to match survey responses against other data such as, but not limited to, your demographics, enrollment records, graduation data, applicant data, and post-baccalaureate data. This data is used for analysis and reporting.

Please be assured that your responses will be kept confidential and the results of the study will be reported only as aggregate (group level) data. Any identifiable information that is obtained in connection with this study will remain confidential. When this information is stored on third party secure storage platforms and secure file transfer suppliers, confidentiality will be maintained and your privacy protected according to the University of California privacy and security policies. This information will only be disclosed when required by law. All data used in public reporting will be reviewed to ensure that your identity cannot be ascertained. Information will be retained in compliance with UC’s Record Retention Schedule https://recordsretentions.ucop.edu/.
Confidential Resources
If needed, you can find confidential on- and off-campus resources and additional support options listed at: https://titleix.ucsc.edu/resources/svsh-resources.html and at https://caps.ucsc.edu/

Contact Information about the Survey
If you have any questions please contact surveys@ucsc.edu.

*To enter the drawings without completing the survey, please send a request to surveys@ucsc.edu. Eligibility starts the day after the request. For the final prize drawing, please send any request by June 30, 2023.
